**\*Barrier-buster special:** Tandem rentals are eligible for a 50% off discount when rented by a pair of riders that includes a person with a vision impairment who cannot independently ride. Likewise, omafiets are free when rented alongside a handcycle to encourage anyone who might want company. All bicycles bring a world to people, but especially those of us who may not have access to the equipment we need. We want everyone to ride, so even if you want to try it for a few minutes for free - just to see if its right for you - please ask. Spread the word and tell a friend!

**\*The weekend ski-by-bike party package:** In winter, when arriving by bicycle to rent skis, swap bikes for free and take a weekend rental of a bakfiets with any six (6) ski, kiksled or snowshoe rentals. Bike valet provided: leave your regular bike with us while you ride the cargo bike for the weekend.

#### Bike Rental Info For Customers

**Pricing:** We think you'll appreciate our rental pricing. The twin goals of our bike rental pricing system are affordability and sustainability. Our aim is to encourage as many people as possible to experience every day cycling culture. We keep our prices competitive, cheaper than car rentals, while ensuring living wages for the kind folks we have on staff. If you're thinking about going for a quick spin just to try before you buy, just ask! Those are free.

**What to rent:** Most people will likely be renting an omafiets, the quintessential Dutch bike. We believe everyone should try one. You might fall in love. We've also got you covered with cycles for all kinds of purposes.

Moving or have a few kids to tow? Try out one of our cargo bikes with a big - or multi-person Workcycle family bikes!  
Romantic getaway in mind, or maybe you have a friend with a visual impairment who'd like to ride? Try a tandem!

Lost the use of your legs but want to put good strong arms to use?! Slide into a handcycle?

Got a family in town or a conference to liven up? Group rates are available for 5 or more rentals! We even do weddings and rentals for entrepreneurs. Ask about our antique wooden bakfiets if you have something really special planned.

**Rental duration:** We rent bikes for a half day minimum and up to a few months.

**Deposits, Repairs and Responsibility** Flat tires happen. We'll fix those. Otherwise, remember to take care of the bike because when you rent one, you become responsible for damages incurred (outside of normal wear and tear) while you use it. *Mandatory repair coverage* is a deposit we keep from each customer renting from us to safeguard ourselves against any major repairs resulting from improper use (like riding off jumps and stuff). If the bike is not repairable, or stolen, you will also become liable for the full replacement cost.

**Just don't do silly things..** That includes forgetting to lock your bike up or giving adult friends a lift on your omafiets down a road filled with potholes. Yes, you *can* ride "Dutch" on an omafiets, and, yes the wheels can handle most potholes, but *should you do it on a rental bike?* Listen, s\*\*t happens in every city. Take precautions. Ride the bike like a normal human, do a good job locking it up and you'll be fine.

**Need assistance? We're here to help.** The most common issue anyone might encounter is a flat tire. Those happen from time to time. If you get one, call us. You can reach us at one of our two shop numbers during open hours. We'll try our best to help. If you get a flat and find yourself near another bike shop, go ahead and get it repaired and we'll reimburse you. Remember, for long term rentals, especially it is strongly advised have a pump handy and keep your tires pumped up as all tires lose air over time. New to town? Remember to grab a free bike map before you go and we LOVE offering suggestions. :)
